Prepared by: Mrs. Aisha Al – Salem . (15th Secondary School)

As a group they will work in this way through,

Discussing; looking for new information; reading

"Introduction"

Group – 1 - " give the answer for – a) "What is Crude oil?"

" Body"

Group – 2 & 4 - b) Where is it found?

- 3 & 5 - c) How is it found?
- d) How is it extracted
- e) Where does it go after that? Why?

" Conclusion"

Group – 6 - f) Is Oil important? Why?

"Special Thanks"

Thanks a lot for everything you did. I am very pleased with this "Teachers Project." I appreciated your great efforts. The methods which are given are very effective. It helps me a lot in my classes especially in writing and reading classes. My students are very happy because they find a way to express and exchange their own thoughts even the weak ones.

They like the "Jigsaw Method" a lot. It makes them very active through looking information on discussing with each other.

For me I learn how to be a flexible teacher.

Thank you,

Aisha Al – Salem

(15th Secondary School)
